

PROJECTOR

PRS Series Adjustable Height Projector Kits

Includes Spider™ Universal adapter plate to mount virtually any projector

The new PRS series adjustable height ceiling kits provide an all in one solution for quick and easy installations where variable drop length is needed. The kitted ceiling mount is available in three adjustable sizes to accommodate various desired drop lengths. It can be mounted to any common ceiling structure, and can be flush mounted where a low profile application is needed. The PRS adjustable height kits are specifically designed to save time and money when mounting projectors.

- Comes in three adjustable height ranges to accommodate various drop lengths (in 1" increments): 8"-11", 20"-26" and 14"-20"
- Can also be flush mounted for a low profile installation
- Ceiling plate included for wood and concrete installations
